-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 7/22/09 have been fully considered but they are not persuasive as indicated below.

Downey is being utilized to modify the stem structure of the Garguillo and Peterson to move a seal member to effectively allow or block water flow. One skill in the art would find an effective way to combine the teaching of the Downey and Garguillo or Peterson to yield a workable plug having a strainer.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-4, 6-14 and 19-30 are rejected under 35 U.S.C. 102(b) as being anticipated by Garguillo as set forth in the previous office actions.

The addition of the functional language of the relative movement between the first portion is taught by members (76,72) and the second portion is taught by member 60 wherein member 60 is separable as a unit with members (76,72) from the outlet waste 31 as shown in Fig. 2 by having members (76,72,44,18) separate from member 31. The movement between member (76,72) relative to member 60 adjust the length of the stem (76,72,60) as claimed.

Art Unit: 3751

4. Claims 1, 2, 5, 7-14, 19-21 and 23-30 are rejected under 35 U.S.C. 102(b) as being anticipated by Peterson as set forth in the previous office actions.

The addition of the functional language of the relative movement between the first portion is taught by members (50,60) and the second portion is taught by member 16 wherein member 60 is separable as a unit as shown in Fig. 2. The movement between member (50,60) relative to member 16 adjust the length of the stem (60,16,50) as claimed.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 15-18 and 32 are rejected under 35 U.S.C. 103(a) as being unpatentable over Garguilo or Peterson in view of Downey as set forth in the previous office actions. The application of less than around 5 lbs of force varies the stem length would have been inherently obvious to one skill in the art at the time the invention was made in view of the Downey reference. The modification of the stem in view of Downey would have the first portion move relative to the second portion as claimed.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
